Snowmobile Operating Safety Instructions

1. Always operate the snowmobile in a safe manner.
2. Snow conditions change daily, and it is impossible to identify all hazards.
3. Stay on the right side when traveling on trails.
4. Use extreme caution around other snowmobiles, trees, fences, rocks and other hazards.
5. Snowmobiles slide on snow and ice. Allow plenty of room to stop.
6. When approaching a corner, slow down and stay to the right side of the trail.
7. Raise your hand above your head to signal slowing or stopping on the trail.
8. Control the speed of the snowmobile when going downhill by pumping the brakes.
9. Stop the engine by pressing the red 'kill' switch.
10. Use your weight to help control the snowmobile. When turning, shift your weight in the direction you wish to turn the snowmobile. When side-hilling, shift your weight to the uphill side of the snowmobile.
11. If you should get the snowmobile stuck, turn off the engine and wait for the guide's return to help you. Do not try to lift or pull on a stuck snowmobile. Do not leave the snowmobile. The guide will help you.
12. You will be traveling at elevations of 8,000 to 11,000 feet. The air is thinner at higher elevations so take it easy.
13. Helmets are required while riding a snowmobile.
14. When two people ride double, snowmobiles are somewhat harder to handle. Steering may be more difficult.
15. Do not jump the snowmobiles. Slow down when approaching bumps. Jumping will terminate the tour.

16. Please follow the instructions of your guide. They are interested in your safety and that of everyone in the group. If anyone conducts themselves in a manner that endangers themselves or others, the guide can terminate that person's tour without a refund.
17. Dress properly for the conditions. Remember, you can always take off layers if you get too warm.
18. Legal Guardians must sign for children under the age of 18. Children under 18 must be under the direct supervision of their Legal Guardian(s).
19. Insurance will not cover any damage to the snowmobile while in your care and you will be responsible for any damage. Damage will be charged at list price for parts and shop labor rates.
20. Check the following items to be sure they operate properly: the red kill switch, head light, and steering. If any of these items are not functioning, please let your guide know.

THE GUIDE WILL INSTRUCT YOU FURTHER ON THE OPERATION OF THE SNOWMOBILE BEFORE THE TOUR LEAVES. PLEASE ASK YOUR GUIDE ANYTIME YOU HAVE A QUESTION.
